

Old Dominion University and the Virginia Modeling, Analysis and Simulation Center present for Summer 2013

# ROBOTICS CAMP

For Summer 2013, the Virginia Modeling, Analysis, and Simulation Center of Old Dominion University is pleased to host two Game Development Summer Camps, a 3-D Modeling Camp, and exciting hands-on Robotics Camps!

**3-D Modeling Camp**  
July 8 - 12

**Introductory Game Development**  
July 22 - 26

**Intermediate Game Development**  
August 12 - 16

**Introductory Robotics Camp**  
June 24 - 28

**Advanced Robotics Camp**  
August 12 - 16

GAME CAMP

## 3-D MODELING CAMP

### GAME CAMPS HIGHLIGHTS

- Each day of the week-long Game Development Summer Camp starts at 9:00 AM and ends at 3:00 PM.
- Daily activities consist of interactive lectures given by ODU faculty, hands-on game development exercises and a game play session at the end of the day.
- Lunch will be provided.
- The preferred age group is 12 - 16.
- Campers need to take the Introductory Camp in order to attend the Intermediate Camp
- Registration for each camp is limited to 25 participants.

### ROBOTICS CAMPS HIGHLIGHTS

- The Robotics camp begins at 8:45 AM and ends at 4:00 PM.
- Daily activities consist of interactive lessons given by ODU faculty, robot construction, and various competitions or demonstrations.
- Lunch will be provided.
- Ages: 14 - 17 (8th - 11th grade); younger campers (to age 12) with prior robotics experience are welcome.
- Cost includes all hardware which students can take home at the completion of the camp.
- Registration for each camp limited to 12 participants.

Please visit our web site for more information, forms and registration limits for each camp.
