## The NEW DL

With the change in technology used to deliver your in-class Distance Learning courses, you will want to acquaint yourself with the new method of course delivery: web conferencing.  This change from satellite to web conferencing will be completed by the end of summer.  To help you get acquainted with the new web conferencing system, CLT is offering two two-hour workshops:

**The NEW DL: Logistics** – Workshop topics include distributing materials, course design, copyright and fair use, finding your class roster, grade distribution, etc.  It is recommended that you take this workshop if you have not taught a distance course before or if you would like a refresher on the details.

**The NEW DL: Web Conferencing** – Workshop topics include strategies and how-to techniques for using the new technology that you will find in your classroom.  Feel free to register and attend more than one of these sessions if you want additional practice.
