

Zika Virus a Global Health Emergency: Mosquito Control Service Learning Project

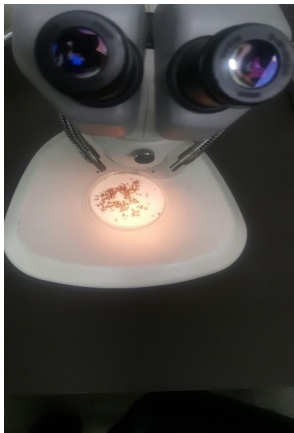

Addressing the need for vector control efforts in the local community through service learning.

**Tuesday, November 15, 2016
10:30 AM**

**The Learning Commons @ Perry Library
Conference Rooms 1310-1311 (1st Floor)**
Light refreshments will be served

Join us to discuss the:

- Summer 2016 collaboration between the Old Dominion University Center for Global Health, Eastern Virginia Medical School/Old Dominion University MPH program and the Norfolk Department of Public Health.
- Opportunity students had to learn about Zika Virus prevention efforts that are taking place in their local community.
- Experiences of students who participated in the Mosquito Control Summer Project.
- Field experiences in identification, control, surveillance, and education.
- Importance of understanding that the Zika Virus is an international and domestic health concern and ultimately, there is a need for local prevention efforts.
