

FIRST ANNUAL MARKET BRIDGE CHALLENGE 2016 BROADBAND

Teams are forming now!

How would broadband affect telecommuting, education, emergency response? How would broadband benefit economic growth? What will happen when Hampton Roads closes the Digital Divide?

SHARE YOUR VISION!

The benefits of having access to affordable and reliable broadband are well documented. Broadband technologies enable innovation, help companies be competitive, foster growth of startups, and keep the brightest minds in the area.

We are looking for forward thinkers to create a “vision paper” demonstrating how broadband technology can make a difference in Hampton Roads. ***Prize winner will be awarded in July 2016!***

Register to attend the Market Bridge Information Session on March 29, 2016 at:
