

FIRST ANNUAL MARKET BRIDGE CHALLENGE 2016 COASTAL RESILIENCE

In partnership with AeroTech, Concursive and Wetlands Watch

FORM YOUR TEAM NOW!

Can you develop an app to give the best route home during traffic and flooding? Can you include the best tidal predictions to show where in Hampton Roads flooding will occur in 4 hours? Do you have an idea for an amazing app that everyone in Hampton Roads and the coastal US will want?

WE WANT YOUR IDEAS!

Prize will be awarded for the best app concept(s) to run on the Sea Level Rise (SLR) mobile app. Available FREE on the Apple and Google Play Stores, SLR is currently used by universities and research organizations to track coastal flooding. The winning concept will be innovative, useful, economically sustainable, and scalable to all SLR users world-wide. The winning team will develop app concepts, not software, as well as a business opportunity description.

Winning team(s) share a \$10,000 prize.

Register to attend the Market Bridge Information Session on March 29, 2016 at:
