“Mainstreaming Stories: A Day of Solidarity with the Uyghurs”

Join scholars and activists on April 26 to stand in solidarity with Uyghurs living in the People’s Republic of China. Currently, Uyghurs in the hundreds of thousands have been effectively taken prisoner in their homeland. Countless endure in concentration re-education camps; thousands more are subject to invasive government homestays; and virtually every Uyghur is subject to a high-tech cyber police state. Each lecture will explain this crisis and provide an opportunity for your questions to be answered.
