WORKING HARD, WORKING SMART? MANAGING SITUATIONAL AWARENESS

Register Now! Wednesday, November 16, 12 PM EST

- Situational Awareness (SA) enables managers to perceive, comprehend and predict future outcomes with the information that they have at hand and has been shown to improve performance. In this webinar, you will learn:
 - three practical ways that a manager (or even yourself) can foster a greater sense of SA.
 - how using certain coaching and planning techniques as well as meeting facilitation techniques (e.g., whiteboarding) can lead to higher levels of SA.
