**\$140**  
TOTAL COST

### DESCRIPTION

The ODU Speech and Hearing Clinic's LEGO Social Skills Group is an in-person group for 7- to 9-year-olds. STEAM activities using the LEGO® Learning System will be used to create interactive peer learning opportunities to develop social thinking and problem-solving skills. The group will be led by two to four graduate student clinicians under the supervision of a licensed speech-language pathologist. Participants must have a diagnosis or educational eligibility of autism spectrum disorder (ASD) with primary needs in pragmatics and must commit to participating for the entire five weeks. Please note that the group size will be limited to 8 participants.

We thank the Tidewater Scottish  
Rite Foundation for their support!
