ODU TechKnow Workshops

Information Technology Services

Cyber Security and Online Privacy - Stay Safe Online

This session is intended to help you stay safe online and will empower and educate you to protect your privacy, control your digital footprint, and make the protection of privacy and data a great priority in your life.

Tue., Jan. 28, 2:00 pm
Learning Commons,
Rm. 1310

VCL and MOVE - ODU's Virtual Computer Environments

ODU's Virtual Computer Lab environments provide 7 X 24 X 365 computer access to applications and systems for anyone that has access to the internet. Learn how to connect to and use these environments.

Wed., Feb. 5, 12:00 pm
Learning Commons,
Rm. 1310

Mobile IT Services - Apps on Your Mobile Device to Enhance Your Academic Experience

We will demonstrate how to better utilize ODU technology resources directly and conveniently from your mobile device. At the end of this workshop, you will be able to connect to the ODU wireless network, check student email, view classes in Blackboard and use the ODUMobile app to explore the campus. All of this and more can be done quickly and easily from your internet connect mobile device.

Tue., Feb. 25, 12:30 pm
Student Success Center,
Rm. 2017

Viruses and Malware - Keep a Clean Machine

Instructional training session on how to remove viruses and malware from your computer using McAfee Anti-Virus and Malware bytes Anti-malware as well as how to perform your Operating System updates. We will introduce basic tools used in malware removal and provide you with basic knowledge needed to identify and remove malware.

Wed., Mar. 19, 12:00 pm
Learning Commons,
Rm. 1310

Google Apps - How to Use More of the Productivity and Collaboration Tools

Having Gmail as your student email provider gives you access to several other Google Applications. We will discuss some of the more uncommon features of these applications as well as using these applications for collaboration.

Tues., Mar. 25, 12:30 pm
Student Success Center,
Rm. 2017

Data Backup - Don't Leave Important Data Out in the Cold

We are all only one computer virus, hardware failure, or user error away from losing important digital information. There are a multitude of tools available today to help you keep your data from being lost. A proactive approach to computing includes keeping current backups of your data readily available and easily accessible.

Wed., Apr. 2, 12:00 pm
Learning Commons,
Rm. 1310
