# DOCUMENTED

a film by an ~~illegal immigrant~~  
undocumented American

**“DOCUMENTED** is the uplifting and heartbreaking true story of Pulitzer prize-winning Filipino journalist Jose Antonio Vargas, who “outed” himself as an undocumented immigrant in 2011, risking his freedom, his career, and his adopted homeland. Jose's grandparents brought him to America as a child without telling him he had false papers.... Jose turned out to be a brilliant student and became a famous journalist.... After writing the story revealing his status, Jose created an organization to promote paths to citizenship for undocumented immigrants . “
