Midterm Progress Report for MSEd Practicum Students
COUN 669
Old Dominion University, Graduate Counseling Program

Progress Report for MSEd Practicum Student:

Individual/Triadic Supervisor who is completing the progress report:

Faculty Supervisor (i.e., 669 Course Instructor):

Describe the student’s strengths in regards to counseling and case conceptualization skills observed.

Describe the student’s growth areas in regards to counseling and case conceptualization skills observed.

Describe the student’s receptivity to feedback during individual/triadic supervision. How does the student respond to and utilize feedback received?

Describe the student’s adherence to professional behaviors and program policies/procedures (e.g., demonstrates ethical behavior, turns assignments in on time, attends supervision as scheduled, uses effective communication).

Select one:
Based on my observations as the student’s Individual/Triadic Supervisor,

☐ The student is making progress, as expected for their developmental level, toward a PASS for Practicum.

☐ The student is not making progress as expected for their developmental level, toward a PASS for Practicum.

If this item is selected:

1. Describe the student’s skills or professional behaviors that need attention. Only describe skills or behaviors that are not developing at level as expected for the developmental stage as a Practicum [1st semester fieldwork] student. Align your descriptions with the CCG skills and KPDs as a reference point, given these are the skills and behaviors the supervisee is rated on at the end of 669.

2. Submit a PDF copy of the Midterm Progress report directly to the student’s 669 Faculty Supervisor. With the Faculty Supervisor, develop a plan to address the student’s areas described in item 1 that are not at level for the rest of the semester.
