Title: Researcher Beware: Credible Vs. Predatory Publishers and Conferences

Abstract:

Predatory journals have become a serious problem in academia. It's important that graduate students and faculty are knowledgeable about predatory publishing practices. This seminar will include topics such as: predatory publishing tactics; solicitation emails; credible scholarly practices, and useful related library resources.

Bio:

Abbie Basile is the Engineering & Physical Sciences Librarian at ODU. She has over 12 years of experience as an academic librarian and previously held positions at Rensselaer Polytechnic Institute, Tidewater Community College, the University of Mary Washington, and the University of Michigan.
