

Seminar Talk

Ike Flory, Ph.D.
Associate Professor
Engineering Technology Department
Old Dominion University

Friday, October 31, 2014
3:00 p.m. KH 224

Title:

Bi-Level Demand-Sensitive LED Street Lighting Systems.

Abstract:

The presentation is based on a joint project conducted with Virginia Tech and discusses performance of solid-state lighting systems along with energy savings strategies.

Bio sketch:

Dr. Ike Flory is currently an Associate Professor of Engineering Technology at Old Dominion University where he has been the recipient of the 2007 Frank Batten College of Engineering and Technology Excellence in Teaching Award. He received his B.S., M.S. and Ph.D. degrees in Electrical Engineering all from Virginia Tech, and has over 17 years of experience in the lighting industry. Prior to joining ODU he served in several positions as an employee of Hubbell Lighting Incorporated including Manager of Electrical Engineering and Intellectual Property Coordinator. He has been awarded 25 United States Patents and is a licensed Professional Engineer in the Commonwealth of Virginia. Dr. Flory performs research in the areas of energy conversion, energy conservation, and illumination engineering.
