## EMERITA APPOINTMENT

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the title of emerita to the following faculty administrator/faculty professional. A summary of her accomplishments is included.

Name and Rank

Effective Date

Deborah Kinney  
Coordinator Emerita for Undergraduate Student Services  
Department of Electrical and Computer Engineering

October 1, 2018

DEBORAH KINNEY

Deborah Kinney's affiliation with Old Dominion University began 50 years ago as a freshman in September 1968. After putting her academic endeavors on hold to raise a family, she returned to continue her studies in 1985. She took one class at a time while raising a family and earned a B.A. in economics in 1999.

Kinney began her career at Old Dominion as a work study student in the Office of Admissions in 1985. In 1986, she accepted a full-time classified position as Enrollment Services Specialist in the Office of International Admissions. Some of the duties included review and evaluation of international educational documents to determine admission of international students. Another aspect involved counseling applicants and international placement officers for prospective international students. Although not expected to directly interact with the students upon arrival at the University, Kinney was often asked to meet with them and assist them with various aspects of their new environment. As a student, she was uniquely able to offer them assistance in a variety of matters, including helping them to register for courses, seek housing, and purchase textbooks and supplies.

Kinney started as the Coordinator of Undergraduate Student Services in the Department of Electrical and Computer Engineering within days following graduation. She has held this position for the past 19 years, assisting students in the pursuit of their goals and dreams of obtaining a degree from Old Dominion University. She was active in the early years of Womengineers events within the College, which promoted women in engineering, and also assisted in Engineering Week events for several years. She was nominated for the Excellence in Support Operations award In the College of Engineering in 2004. For the past 17 years, Kinney served as the announcer of the names of graduating engineering students at the twice-yearly commencement ceremonies. She has been asked to return in December 2018 and May 2019 to read the names of the upcoming graduating students whom she had the pleasure of advising.

APPROVAL TO DISCONTINUE THE JOINT OFFERING OF  
THE MASTER OF PUBLIC HEALTH WITH EASTERN VIRGINIA MEDICAL SCHOOL  
AND APPROVAL FOR THE CONTINUATION OF THE PROGRAM OFFERED SOLELY  
BY OLD DOMINION UNIVERSITY

COLLEGE OF HEALTH SCIENCES

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the discontinuation of the joint offering of the Master of Public Health degree with Eastern Virginia Medical School effective May 2020 and the continuation of the program as a sole offering at Old Dominion University effective fall 2019.

Rationale: Old Dominion University (ODU) and Eastern Virginia Medical School (EVMS) proposed a jointly-offered Master of Public Health (MPH) in 1996, and in June 1997 ODU was granted final approval by the State Council of Higher Education for Virginia to initiate the program in summer 1997. In addition to the joint program offering, EVMS and ODU had planned to launch a joint School of Public Health.

Old Dominion University and Eastern Virginia Medical School developed a core within the MPH, along with four concentrations, with each institution offering two of the four concentrations. The interdisciplinary teams from the ODU-EVMS partnership offered a significant advantage to students in a number of programs that intersect with public health, including medicine, nursing, bio-statistics, business, and community health. The program has been offered for two decades, with EVMS serving most recently as the institution of record.

In recent years, ODU and EVMS faculty and administrators recognized that the long-term goal of establishing a joint School of Public Health would not be feasible because of the restrictions stipulated by the Council of Education of Public Health, the accrediting agency of public health schools. ODU provided formal intent to terminate the agreement and the program with EVMS, consistent with the terms of the Memorandum of Agreement signed in September 2009.

Old Dominion University proposes to maintain the Master of Science in Public Health with two concentrations that the institution has offered over the last two decades.

The College of Health Sciences at ODU is now focused on new strategic priorities, with an independent offering of the MPH among them. In addition, the College is interested in expanding access to public health education and training at the ODU Virginia Beach Center and online.

Old Dominion University proposes to launch the independent offering of a Master of Public Health effective fall 2019. For current students enrolled in existing concentrations offered by Old Dominion University, courses in those concentrations will remain available to students who have not yet completed the program by May 2020.

APPROVAL TO DISCONTINUE THE CURRENT POST-PROFESSIONAL MASTER OF SCIENCE IN ATHLETIC TRAINING DEGREE PROGRAM AND TO INITIATE THE DEGREE PROGRAM AS A PROFESSIONAL/ENTRY-LEVEL CREDENTIAL

COLLEGE OF HEALTH SCIENCES

RESOLVED that, upon the recommendation of the Academic and Research Advancement Committee, the Board of Visitors approves the discontinuation of the current post-professional Master of Science in Athletic Training effective summer 2020 and the initiation of the degree program as a professional/entry-level credential effective summer 2019.

Rationale: The existing Master of Science in Athletic Training (MSAT) degree program is a post-professional/advanced practice credential with a curriculum that covers content for advanced-level education and training, and maintains outcomes that differ from the outcomes identified for the proposed program. This existing post-professional MSAT will be discontinued in May 2020, after the last cohort has graduated.

The proposed MSAT degree program is a professional/entry-level credential that will start in summer 2019 and will meet requirements of the Commission on Accreditation of Athletic Training Education, which requires master's-level programs for the professional level by 2022.

The purpose of the proposed MSAT degree program in athletic training is to prepare students to become athletic trainers—health care professionals who collaborate with physicians to optimize patient and client activity and participation in athletics, work and life. Individuals who desire to become athletic trainers must complete a Commission on Accreditation for Athletic Training Education (CAATE) professional/entry-level program, which will be required at a master's level by 2022. Completing an entry-level program allows the individual to sit for the Board of Certification (BOC) examination in athletic training. The proposed degree program will be a cohort-based, full-time enrollment degree program that will prepare students for the both the national credentialing examination and athletic training clinical practice.

Graduates will be prepared with the knowledge, skills, and abilities necessary to enter the field of athletic training and focus on the prevention, examination and diagnosis, treatment, and rehabilitation of emergent, acute, subacute, and chronic

neuro-musculoskeletal conditions and certain medical conditions to minimize subsequent impairments, functional limitations, disability, and societal limitations.

In addition to necessary coursework with an emphasis on the sciences, students will be exposed to actual patient care opportunities in a variety of athletic training practice settings, including but not limited to high schools, colleges and universities, professional sports teams, hospitals, rehabilitation clinics, physicians' offices, and corporate and industrial institutions.
