Minutes of the Values Work Group Meeting  
March 7, 2022, at 4:00 pm, via Zoom

Attending: September Sanderlin, Tom Socha, Jared Hoernig, Narketta Sparkman-Key, Jamie Colwell.

Review of Work so Far
September Sanderlin added the Respect section to the draft that was submitted on Friday. Tom Socha stated that he made some edits and put the clusters into alpha order. Narketta Sparkman-Key stated that she does not think there should be a separate section for Resilience, and September Sanderlin agreed as the concept has been captured elsewhere. Tom Socha removed the paragraph, however the sentence concerning sea level rise was included with the Innovation section. The group agreed to these changes as there was nothing lost by deleting that paragraph.

Edits to Clusters
There were various other edits made to the rest of the areas. For example: a reworking of Collaboration that deleted the first 2 sentences and added more about working across disciplines, changing Inclusiveness to Inclusion, a few word changes in most of the sections, and minor grammatical corrections.

Final Draft
The group finished the Values draft, and the completed document will be presented, along with the final draft of the Mission Statement, to the Steering Committee.
