1. Today VP Ashley Schumaker attended our meeting and provided an overview of the current state of the committee’s reports.
   a. All committees have presented their reports.
   b. Reports now will be approved by the cabinet next week.
   c. After cabinet approval, the reports need to be approved by leadership.
   d. Reports will be available in Teams once they are approved.
   e. Our task is not to rewrite anything that has been approved but to edit and make the reports work together with one voice. We should also look for any repetition or redundancy, making sure everything is strategic not operational. Our goal is one coherent document.
   f. Current general reports with goals and strategies are in Teams.
      i. Yellow highlighting may be a section that needs editing.
      ii. Revisions on document is from the steering committee.
   g. Organization of our report should follow a verbal system for goals with numbers then strategic lettering (e.g. 1, 1a, 1b, etc).
      i. The strategic enrollment committee did use the system appropriately, so their document can be used as an example.
